

Sidcop

COMMUNITY NURSERY

Dear Chris,

Following the work that you carried out within our Nursery, I just wanted to say thank you to you and your team for all the work that was carried out.

We entered the work with a mixture of nervousness and excitement. Nervous of how the work could impact our daily routine and the children within our care and the excitement of the end result.

I can honestly say that we need not have worried about anything. You and your team were so professional and throughout the whole process made sure that any impact was kept to a minimum. No job seemed too small or a problem and everything has been carried out to a really high standard.

The children also seemed to enjoy the whole experience, watching and observing all of the activities and seeing the end result evolve.

I would have no hesitation in recommending you and your company to anyone. We are so pleased with the result and the difference that it has made to our nursery.

Thank you for transforming Sidcop Nursery.

Yours faithfully

Kerry Tupman
